excellences of Made in Italy, free of charge and without charge to MiTur and ENIT, in order to ensure their visibility on an international scale.

Art. 1 - Purpose of the Notice

The purpose of this Notice is to collect adhesions, on an equal basis, from private entities and economic operators, on the one hand, interested in entering into collaboration agreements with MiTur and ENIT, on the other hand, aimed at conceiving and carrying out co-branding initiatives designed to promote the portal <https://www.italia.it> and/or the TDH portal, as well as the excellences of Made in Italy, free of charge and without charges to MiTur and ENIT, in order to ensure the visibility on an international scale of the same.

The co-branding agreement will have a twofold function: to provide, on the one hand, content to be published on the italia.it and/or TDH portal through which to enhance a specific theme related to the promotion of tourism in Italy and Made in Italy, as well as, on the other hand, to promote the sharing of this contribution on the Adherent's own channels, under the conditions better explained below, guaranteeing the visibility of the italia.it and/or TDH portal.

Within the framework of the Agreement, the Parties will be entitled to jointly devise co-branding initiatives to be implemented through the portal <https://www.italia.it> and/or all other channels pertaining to TDH, as well as through all physical and virtual channels proposed by the Adherent.

Joining the TDH ecosystem will therefore allow the mutual exchange of content and data which can also be enriched with browsing data collected during the user-experience on the italia.it portal and/or other channels chosen with the co-branding project. Subsequently, therefore, the acquisition by TDH and/or the italia.it portal of specific categories of aggregated digital data may be made available and/or searchable to the relevant Adherents through reporting systems made available by MiTur.

Adherence to this Notice will take place through the submission of a co-branding project proposal, as explained in more detail below, which will be screened and judged by a special Evaluation Committee appointed by the R.U.P. to assess the consistency of the proposals submitted with the content and purposes of this Notice, as well as with those expressly provided for in the technical annex and in coherence with the positioning of the TDH. In its proposal, the Adherent will have to give evidence of distinctive elements such as: the organizational model adopted (resources, professional skills, contact persons); the proposed content; the content promotion and communication strategy; the target audience, the digital and/or physical channels to be used, the formats and/or amplification initiatives (e.g., social posts, influencer marketing, video strategy, podcasts, live streaming...); the expected geographic coverage; the languages used to convey the content; and expected qualitative and quantitative results.

In any case, will be evaluated with preference project proposals of subjects in possession of environmental or accessibility certifications.

The content object of the Co-branding Agreement in order to be published in the TDH and/or italia.it ecosystem - and consequently shared on the channels proposed by the Adherent - must be suitable to profitably match the tourist demand towards Italy with the relative Italian offer, relating the following elements: person (tourist), content (from which to infer the person's interest), destinations and offer including the enhancement of typical products of Italian excellence (made in Italy).

In no case will be published content with purposes different from those clarified above and/or with content even indirectly advertising and / or promotional logos, trademarks and / or distinctive signs

and / or designations of a commercial nature. In any case, copyright will be guaranteed, giving evidence of logos, trademarks and/or distinctive signs and/or denominations of the partners who contributed to the drafting of each specific contribution.

The provision of editorial content will take place through the stipulation of a specific collaboration agreement aimed at defining and implementing a co-branding strategy, in the manner explained below.
